Less Energy
**More Heating with
Simfer**

A new generation of heating appliances designed to provide a comfort of heating and impressive energy saving in your living spaces.

With its slim and stylish design, Craft heating appliance will be the hottest and most elegant piece at your living spaces. From the very early stages of design, the technologies used and the components developed mean that you can enjoy the availability of quick and highly efficient heating while protecting your finances. With the special angle projection system in the Craft series, the heat is reflected in 3 different angles and a fast warming is achieved. In this case, the heat efficiency is at the maximum level. This is the main feature that distinguishes this product from standard reflectors and is available in all our heaters.
